

## Journal of Science Learning (JSL, *J.Sci.Learn*)

The Journal of Science Learning is an open access and peer-reviewed journal published by Universitas Pendidikan Indonesia. The aim of Journal of Science Learning is to promote a principled approach to research on science learning by encouraging enquiry into relationship between theoretical and practical studies. The article offers ways to improve classroom science teaching and learning, and professional development. The Journal welcomes contributions in such areas of science learning, science learning in everyday life, science teacher education, science studies and science education. JSL is a triannual journal issued on March, July, and November. The journal was first published by Universitas Pendidikan Indonesia in 2017.

### Peer Review Policy

Newly submitted manuscripts will first be screened by the main Editors. Manuscripts may be rejected at this stage if they are of insufficient quality, outside the scope of the journal or they are considered not original. Manuscripts that do meet the minimal requirements for publication are assigned to one of the main Editors, who sends the manuscript out for review. Reviewers are selected by the main Editors on the basis of their expertise, their availability, and such as to avoid possible conflicts of interest. A reviewer is asked to evaluate whether the manuscript is scientifically sound, original, relevant, clear, whether it correctly references previous work, and whether it falls within the scope of the journal.

All research articles in this journal have undergone rigorous peer review, based on initial editor screening and anonymized refereeing by at least two anonymous referees. The acceptance or rejection of articles will be decided by the editorial boards based on the review results supplied by the reviewers. There are no communications between authors and editors concerning the rejection decision. Authors whose papers are rejected will be informed with the reasons of the rejection.

All papers are fully peer-reviewed. We only publish articles that have been reviewed and approved by highly qualified researchers with expertise in a field appropriate for the article. We used single blind peer-reviewing process. To ensure the integrity of the blind peer-review for submission to this journal, every effort should be made to prevent the identities of the authors and reviewers from being known to each other.

### Editorial Team

#### *Editors-in-Chief*

[Prof. Ari Widodo](#), Department of Biology Education, Universitas Pendidikan Indonesia, Bandung, Indonesia

[Dr. Eka Cahya Prima](#), Department of Science Education, Universitas Pendidikan Indonesia, Bandung, Indonesia

#### *Editorial Boards*

[Prof. Peter John Aubusson](#), School of Education, University of Technology Sydney, Sydney, Australia

[Prof. Reinders Duit](#), Leibniz Institute for Science and Mathematics Education, University of Kiel, Kiel, Germany

[Prof. IGP Suryadarma](#), Department of Biology Education, Universitas Negeri Yogyakarta, Yogyakarta, Indonesia

[Prof. Marissa Rollnick](#), School of Education, University of Witwatersrand, Johannesburg, South Africa

[Prof. Yayan Sanjaya](#), Department of Biology Education, Universitas Pendidikan Indonesia, Bandung, Indonesia

[Prof. Suyono](#), Department of Chemistry, Universitas Negeri Surabaya, Surabaya, Indonesia

[Prof. Anna Permanasari](#), Universitas Pendidikan Indonesia, Indonesia

[Prof. Zuhdan Kun Prasetyo](#), Universitas Negeri Yogyakarta, Indonesia

[Assoc. Prof. Kok-Sing Tang](#), School of Education, Curtin University, Bentley, Australia

[Assoc. Prof. Wahono Widodo](#), Department of Science Education, Universitas Negeri Surabaya, Surabaya, Indonesia

[Assoc. Prof. Diana Rochintaniawati](#), Department of Science Education, Universitas Pendidikan Indonesia, Bandung, Indonesia

[Assoc. Prof. Ida Farida](#), Department of Chemistry Education, UIN Sunan Gunung Djati Bandung, Indonesia

[Assoc. Prof. Usmeldi](#), Department of Electrical Engineering, Universitas Negeri Padang, Padang, Indonesia

[Dr. Kendra McMahan](#), Centre for Research in Scientific and Technological Learning and Education, Bath Spa University, Bath, United Kingdom

[Dr. Hamza Omar Mokiwa](#), Department of Science and Technology Education, University of South Africa, Pretoria, South Africa

[Dr. Setiyo Prajoko](#), Department of Science Education, Universitas Tidar, Magelang, Indonesia

[Ferli Septi Irwansyah, M.Si.](#), Department of Chemistry Education, UIN Sunan Gunung Djati Bandung, Indonesia

[Eliyawati, M.Pd.](#), Department of Science Education, Universitas Pendidikan Indonesia, Bandung, Indonesia

[Bevo Wahono, M.Pd.](#), Department of Science Education, National Taiwan Normal University, Taipei City, Taiwan, Province of China

[Irwandani, M.Pd.](#), Department of Physics Education, Universitas Islam Negeri Raden Intan Lampung, Bandar Lampung, Indonesia

[Nanang Winarno, M.Pd.](#), Department of Science Education, Universitas Pendidikan Indonesia, Bandung, Indonesia

[Herni Yuniarti Suhendi, M.Pd.](#), Department of Physics Education, UIN Sunan Gunung Djati Bandung, Indonesia

[Ikmanda Nugraha, M.Pd.](#), Department of Science Education, Universitas Pendidikan Indonesia, Bandung, Indonesia

[Riski Muliyan, M.Pd.](#), Department of Physics Education, STKIP Singkawang, West Kalimantan, Indonesia

[Rika Rafikah Agustin, M.Pd.](#), Department of Science Education, Universitas Pendidikan Indonesia, Bandung, Indonesia

[Haris Rosdianto, M.Pd.](#), Department of Physics Education, STKIP Singkawang, West Kalimantan, Indonesia

[Yudi Kurniawa, M.Pd.](#), Department of Physics Education, STKIP Singkawang, Indonesia

[Thoah Firdaus, M.Pd.](#), STKIP Nurul Huda, Ogan Komering Ulu Timur, Indonesia

[Lilit Rusyati, M.Pd.](#), Department of Science Education, Universitas Pendidikan Indonesia, Indonesia

[Gina Gusliana, M.Pd.](#), Pasundan University, Bandung, Indonesia

# Journal of Science Learning

Volume 2, Issue 2, March 2019, pp 33-70

## Table of Contents

<b>Preface</b>	i
<b>Table of Content</b>	ii
The Effect of Project in Problem-Based Learning on Students' Scientific and Information Literacy in Learning Human Excretory System <b>Siti Juleha, Ikmanda Nugraha, Selly Feranie</b>	33-41
Using Brain-Based Learning to Promote Students' Concept Mastery in Learning Electric Circuit <b>Aulianuriy Sani, Diana Rochintaniawati, Nanang Winarno</b>	42-49
Enhancing Students' Creativity through STEM Project-Based Learning <b>Sofi Hanif, Agus Fany Chandra Wijaya, Nanang Winarno</b>	50-57
Improving Students' Sustainability Awareness through Argument-driven Inquiry <b>Erning Rahmadini Salsabila, Agus Fany Chandra Wijaya, Nanang Winarno</b>	58-64
Development of Smart Content Model-based Augmented Reality to Support Smart Learning <b>Siti Fatimah, Wawan Setiawan, Enjun Juniati, Ahmad Syukron Surur</b>	65-70
